## D005 CLESSE BALL VALVE

### Product Code: D005

- Body and ball: brass
- Ball seat: PTFE
- O-ring: NBR
- Handle: zinc plated steel with yellow elastomer protection

### Applications:

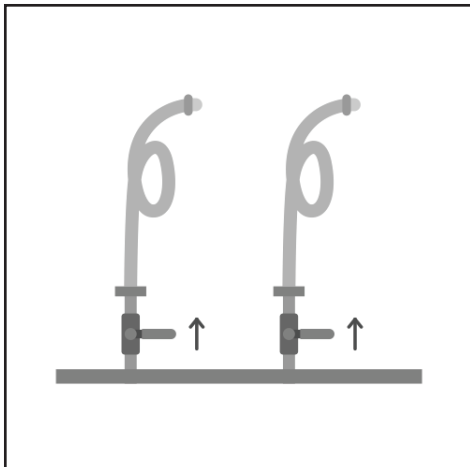

- Ball valves are ideal in both Natural Gas and LPG domestic and commercial installations (1st, 2nd and 3rd families according to EN437). They can also be used in any non-aggressive gas installations (SNG, nitrogen, air, bio methane).

### Technical Specifications:

Code	Connection code	Connection type	Service pressure (bar)	Observation
6210040	F5D	FEM-1/2NPT	17,2 (250 psi)	Comply to UL 125 standard. UL listed 61 WL Service temperature: -20°C/+55°C

\* NF certified
