

Hoses and Fittings

Copper and Brass Fittings for Brazing

Copper Brazing Fittings

- Copper fittings can be used for LPG, NG, SNG, biomethane and other non-aggressive gas (nitrogen, air...) installations and also for potable water, heating and cooling installations.

- European quality copper
- Logo
- Diameter marking for better identification

Service pressure up to 25bar depending on brazing material used.
Large range: from 6mm to 108mm
In conformity with EN1254-1

Brass Brazing Fittings

- Brass fittings can be used for LPG, NG, SNG, biomethane and other non-aggressive gas (nitrogen, air ...)
- In conformity with EN12164 and 12165 standards.
- For all available dimensions please contact us.
